...A place to Learn

Our philosophy make For Kids Only Academy a place to learn. The first years of life are a crucial time to learn, so we consider our responsibility to stimulate the global development of the children.

Since the youngest to the oldest, every kids is involved in a learning activity through supervised play in a planned and stimulating environment.

We have a bilingual staff (Spanish/English) who follows weekly lesson plans, directed to stimulate the children's development and prepare them for the school.
